An Assault Case.
The assault case of the City vs. Lewis Page was on trial before Justice Corley yesterday. Thomas Lee appearing for the defendant, and Mr. Mills for the city. Page is the colored cook at the Hotel Brunswick, where the complainant, Alta Morgan, a white girl, has been on duty in the dining room. The evidence showed that on Saturday evening Alta, in the presence of witnesses, threw her arms about the neck of Page and embraced him. Page objected, and told the loving Alta to quit; she repeated the act three times and at last clung to him. Then Page slapped the girl twice, and she fled from the kitchen screaming and threatening to have the cook arrested. The defendant admitted that he kicked at the girl as she passed out of the door. Miss Morgan testified that Page threw her down and kicked her brutally, but the witnesses in a measure corroborated Page's version of the affair. The lawyers were to have submitted authorities and made arguments to-day, but the display of oratory was mutually postponed until Wednesday.

Mr. J. W. HILL, the expert, who will test the new pump at the water works this week, told a REPUBLICAN reporter last evening that Decatur had as fine a pair of pumps as any city of her size in the country, and if they stand the test, as he believed they would, the people may rest assured that they will do splendid service for many years.

The discovery of ATROPHOPHOS as a specific for Rheumatism and Neuralgia was not an accident, but the result of inquiry into his own case, by a gentleman of wealth, leisure and scientific accomplishment, who had been long a victim of Rheumatism. His own cure proved his theories as to the nature of the disease, and the merits of Atrophophos as a specific for it. Then his friends tried it and their friends. And so the circle widened, till now Atrophophos is recognized in every state as the surest remedy for Rheumatism and Neuralgia that has ever been discovered.

The Greatest Value for the Money Expended

IS OBTAINED IN BUYING

UNIVERSAL RANGES.

UNIVERSAL RANGE ONLY.

UNIVERSAL RANGE WITH RESERVOIR.

Ranges are conceded to be a GREAT IMPROVEMENT over Cook - toves by everybody who has ever examined them. They are more compact, more convenient, have a perfectly square oven, afford more room on top, having six holes in tead of four, as found on a cook stove.

The reason they have never been sold more freely in this market is that the price was so high as to prevent any but those possessed of large means from purchasing.

We are happy to announce that with the Universal Range we have overcome this objection and are now able to present the public with a very superior article at the same price as a

First Class Cooking Stove.

Please call and examine the Range.
